Socially Responsible Portfolio

“Making money isn't a victimless crime. To make money, you have to take it from someone else.”
- The Economist

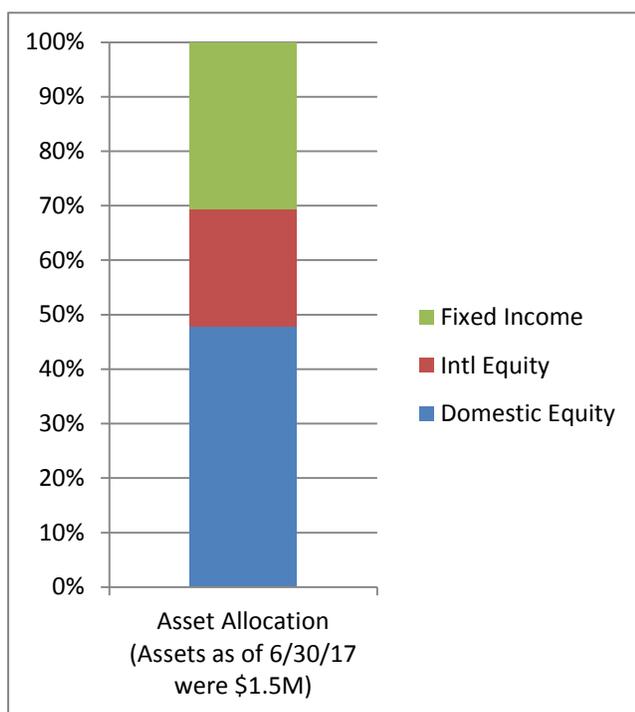

Performance

The Socially Responsible Portfolio's total return over the past twelve months was 13.6%, which outperformed its aggregated investment performance benchmark (50% Domini Index, 20% FTSE All-World ex-U.S. Index, 30% Barclays Aggregate Bond Index) by 0.9%. For the three years ending June 30, 2017, the portfolio reported a return of 3.6% versus a 4.1% for the median Morningstar Moderate Allocation Mutual Fund. For the past ten years, the fund achieved a 4.8% return per year versus the median Morningstar Moderate Allocation Mutual Fund of 4.5% (a period which included the dramatic market meltdown of 2008-2009).

Investment Strategy

The Socially Responsible Portfolio's investment strategy is based on a highly diversified socially screened portfolio of assets with a keen awareness of risk. This balanced approach, consistently executed, reconciles the market's often volatile nature, with our focus on long-term, steady growth over decades.

Maintaining diversification through investing in a broad mix of assets (stocks vs. bonds, etc.) is an important part of achieving our long-term return objectives.

Oversight

The key to executing our investment strategy is the oversight and direction of the Community Foundation of Western Massachusetts' Investment Committee, a group of volunteers who collectively contribute their years of expertise and knowledge. The committee convenes a minimum of four times per year and utilizes the services of DHK Financial Advisors (our outside independent investment advisor) for advice and counsel with regard to asset allocation, manager selection, and performance measurement.

Summary

These investment results are the product of an investment strategy with a focus on low-cost adherence to the stated investment policy and the work of a distinguished group of volunteers who serve on the Investment Committee. We are confident that, over the long term, diversification and discipline will serve the assets of the Socially Responsible Portfolio well.
