

Join us for a Community Partner Gathering!

The Community Foundation invites organizations to join us for a series of gatherings throughout the region this August. Community Partner Gatherings will provide nonprofits and fiscally sponsored organizations with a space to connect, share, and learn. You'll hear about the Community Foundation of Western Massachusetts' Flexible Funding grant opportunity and other resources, while also having time to network, build relationships, and share what would be most helpful to your organization during these times of change.

Please join us in community with peers, lift your voice, and help shape how we support the nonprofit sector moving forward.
